- Transport the child to and from school, after-school activities, and scheduled appointments.
- Plan outdoor activities for the child that promote physical health and a balanced lifestyle.
- Supervise, guide, and update parents about the child's daily activities and progress at home.
- Maintain a clean, safe, and healthy home environment while conveying the child personal hygiene and safety awareness.
- Support the child's emotional and mental health by fostering a nurturing, encouraging, and stable atmosphere.
- Educate and discipline the child in alignment with the parents' requested methods and principles.
- Plan and organize activities suited to the child's age, interests, and personal development needs.
- Performing light housekeeping and cleaning duties.

Skills & Qualifications

- Completion of high school is required
- Completion of a training program in childcare, food hygiene, nutrition, child mental health development, etc., is preferred

- At least six months of caregiver experience is required, either at a private household or a caring institution.
- Experience of working with child of similar age is strongly preferred.
- Strong communication skills, patience, and adaptability, with a genuine passion for working with children.
- Familiarity with first aid, CPR, and safe caregiving practices is highly desirable.
- Understanding of child social and emotional development principles is an asset.
