Job ID: YJ6092696

Posting Date: 24-Feb-2026

Expiry Date: 23-Aug-2026

Education: CPA designation

Language: English

Vacancies: 2

Experience: 5 years

Job Type: Full Time

Job Description

Option 1: Professional & Modern (Best for Job Boards)

Title: Senior Construction Project Accountant

Location: Toronto, ON

The Opportunity

Join a premier Ontario-based construction firm known for excellence and innovation. We are looking for a Senior Project Accountant to lead the financial management of our major developments. In this role, you won't just crunch numbers; you'll serve as a strategic financial partner to our project leadership team, ensuring every project is profitable and efficient.

Core Impact

- **Financial Oversight:** Drive the full lifecycle of project financials, from detailed cost tracking and forecasting to WIP reporting and variance analysis.
- **Strategic Partnership:** Collaborate directly with Project Managers to mitigate risks and optimize project timelines and budgets.
- **Operational Excellence:** Oversee progress billings, subcontractor payments, and lien waivers while ensuring strict contract compliance.
- **Leadership:** Help refine our internal processes and mentor junior team members to foster a high-performing finance department.

What You Bring

- **Industry Expertise:** At least 5 years of construction accounting experience.
- **Technical Mastery:** High proficiency in **Jonas Construction Software** is a must.
- **Financial Literacy:** Deep knowledge of job costing, revenue recognition, and GAAP.
- **Credentials:** A CPA designation (or progress toward one) is highly preferred.

Option 2: Short & Punchy (Best for Social Media/Recruiting)

Role: Senior Project Accountant (Construction)

Location: Toronto

Our client, a top-tier construction leader in Ontario, is hiring a **Senior Project Accountant** to own the financial health of large-scale projects. If you are a **Jonas Software** expert who loves the intersection of finance and operations, this is for you.

Key Goals:

- Manage project budgets, forecasts, and WIP schedules.
- Act as the "financial right hand" to Project Managers.

- Navigate complex billings, holdbacks, and subcontractor reconciliations.

Requirements:

- 5+ years in Construction Accounting.
- **Mandatory Jonas Software experience.**
- Strong Excel skills and an analytical mindset.

Option 3: Comparison of Key Changes

If you are updating the original text, here is a breakdown of how the key sections were streamlined:

Section	Original Focus	Paraphrased Focus
About Company	Leading construction company...	Premier Ontario firm focused on innovation...
Role Summary	Oversee project-level financials...	Strategic financial partner to PMs...
Tech Stack	Strong knowledge of Jonas...	Jonas Software Mastery (Non-negotiable)
Responsibilities	Process billings and lien waivers...	Full-cycle project financial management...
